SKILLS

Front-End

React · JavaScript ES6+ · Tailwind CSS · HTML5 · CSS3 / SCSS · Responsive · GSAP · Three.js · PixiJS · Vite · Landing Pages · CSS Animation · Analytics Dashboards · CRM Apps

Full-Stack · foundations

Node.js · Python · Supabase · REST APIs · PostgreSQL · Electron · Git / GitHub · Vercel

UI/UX & Design

Figma · Photoshop · Krita · Wireframes · Prototyping · Design Systems · Editorial Design

Video, Motion & AI

Premiere Pro · After Effects · Professional Editing · Motion Graphics · AI Video & Image Models · Color Grading · Sound Design · Videography · Kdenlive

AI Workflows

Local AI models · Segmentation (SAM) · Upscaling · OCR & Visual Search · AI-assisted coding

STRENGTHS

- Design-to-code, pixel-perfect
- Visual storytelling & timing
- Mentoring & organization
- Fast campaign turnaround
- Building tools that save time

ABOUT ME

I'm a **creative front-end developer and professional video editor**. After **nine years editing and filming**, I moved into code and spent four years at **NetBet** building landing pages, banners and interactive campaign experiences for international iGaming markets. Since February 2026 I've been at **REI-D Services**.

I work across design, development, video production, and AI. I use **Figma** and **Photoshop** for design, **React** for development, and **Premiere Pro** and **After Effects** for video editing, alongside **AI models** for image and video generation. I also build **analytics dashboards**, **CRMs**, and custom software tools, ranging from automation tools to local AI applications.

EXPERIENCE

Creative Front-End Developer
`Feb 2026 - Present`

REI-D Services

- Own campaign landing pages, HTML5 banners and promo pages for multiple markets, from **Figma / Photoshop design to production code**.
- Built **Bannerflow Blueprint Studio**, a personal React tool with a local LLM: enter copy once, auto-generate every banner size, export PNG / GIF / ZIP.

Front-End Developer
`Jan 2022 - Jan 2026`

NetBet Romania · Full-time · Bucharest · Hybrid

- Delivered **landing pages and custom websites** for casino and sports-betting campaigns: responsive, pixel-perfect and cross-browser.
- Built a **JSON-driven T-shirt kit studio** for 735 teams: home / away kits, 3D preview and **high-quality batch export** in 4K and 8K.
- Built **Xync**, a task tracker with **Jira & Tempo integration**: worklog sync, team analytics and workload reports.
- Created **Lluna**, my own desktop AI tool (Electron + Python) for node-based image and video workflows.

Video Editor & Videographer
`May 2015 - Jun 2021`

Forged Media Production · Full-time · Bucharest

- Edited commercials, branded content and social videos end-to-end, from rough cut to final delivery.
- Filmed on location and in studio; created motion graphics and titles in **After Effects**, color and audio in **Premiere Pro**.
- Organized footage pipelines and mentored junior editors.

Video Editor
`Aug 2012 - Feb 2015`

9Agency · Full-time · Bucharest

- Edited promotional and event videos for agency clients; adapted content for web and social formats.

SELECTED PROJECTS - LIVE SITES & OPEN SOURCE

Graphoria Studio

DESIGN · VIDEO · WEB

Visual storytelling studio: UI/UX, editorial and campaign design, websites and video production. Portfolio with separate design and video showcases.

UI/UX · Campaign design · Video production

graphoria.studio · /design · /video-making

Xync - Sync Task

TASK APP · ANALYTICS

Team task app with **Jira & Tempo integration**: create tasks, sync worklogs, follow team analytics and workload, and export reports to PowerPoint.

React · Supabase · Jira API · Tempo · Recharts

sync-task.app

T-shirt Kit

SPORT STUDIO

Sports t-shirt studio built on **JSON data**: create and edit kits for 735 teams, home / away, 3D view, lighting and **high-quality batch export** in 4K and 8K.

React · JSON-driven · Framer Motion · SVG

dt-shirt.vercel.app/studio

NetBet Sport - 3D Map

3D · LANDING PAGE

Football landing page for NetBet Sport built around an **interactive 3D map** and animated sports gallery.

React · GSAP · 3D · Motion

esport-three.vercel.app

Mega Mesa - CrazySlot

GAME · PIXIJS

Cinematic five-reel Western slot demo on a **PixiJS** canvas: animated reels, eased stops, bounce physics and payline playback.

React · Vite · PixiJS · Canvas

crazyslot.vercel.app · github.com/dexterR35/CrazySlot

Bannerflow Blueprint Studio

PERSONAL TOOL

Banner studio with a **local LLM**: edit per-market blueprints, auto-fit copy, subject-aware cropping, GIF timelines and ZIP export.

React · Vite · Local LLM · SAM 3 · OpenCV.js

github.com/dexterR35/banner-flow

ObtineCredit

FULL-STACK

Public website for credit services plus a custom **admin dashboard / CRM** for managing leads, requests and content.

React · CRM · Admin panel · Vercel

obtinecredit.ro · obtinecredit-admin.vercel.app

Lara - Lottie Studio

MOTION TOOL

Browser-only Lottie asset studio: open JSON / dotLottie, extract and batch-replace images, preview and export rebuilt animations.

UI design & dev · React · Lottie

lara-alpha.vercel.app

Prime A & B

LANDING PAGES

Two invitation-only, story-driven LPs, “Loja Privată” and “Adresa Secretă”: animated reveals, cookie consent, GTM / Meta tracking and SEO.

HTML / CSS / JS · Motion · GTM · JSON-LD

prime-b.vercel.app · github.com/dexterR35/primeA

Lluna

DESKTOP APP · AI

Electron app with a local Python backend for node-based AI image & video workflows: cleanup, upscaling, background removal, generation.

Electron · Python · FLUX · SAM

github.com/dexterR35/lluna

ImageFind

SEARCH · AI

Searchable catalog for large image libraries and NAS: OCR, object detection, visual similarity search and duplicate finder.

Python · SigLIP 2 · SQLite

github.com/dexterR35/imagefind

More on **github.com/dexterR35**: HTML5 banners, Image Studio, LP Builder, games and more.
