SKILLS

Front-End

React · JavaScript ES6+ · Tailwind CSS · HTML5 · CSS3 / SCSS · Responsive · GSAP · Three.js · PixiJS · Vite · Landing Pages · CSS Animation · Analytics Dashboards · CRM Apps

Full-Stack · foundations

Node.js · Python · Firebase · REST APIs · SQLite · Electron · Git / GitHub · Vercel

UI/UX & Design

Figma · Photoshop · Krita · Wireframes · Prototyping · Design Systems · Editorial Design

Video, Motion & AI

Premiere Pro · After Effects · Professional Editing · Motion Graphics · AI Video & Image Models · Color Grading · Sound Design · Videography · Kdenlive

AI Workflows

Local AI models · Segmentation (SAM) · Upscaling · OCR & Visual Search · AI-assisted coding

STRENGTHS

- Design-to-code, pixel-perfect
- Visual storytelling & timing
- Mentoring & organization
- Fast campaign turnaround
- Building tools that save time

ABOUT ME

I'm a **creative front-end developer and professional video editor**. After **nine years editing and filming**, I moved into code and have spent the last years at **NetBet** building landing pages, banners and interactive campaign experiences for international iGaming markets.

I work across design, code and video: I design in **Figma** and **Photoshop**, build in **React**, and edit in **Premiere Pro** and **After Effects**, using **AI models** for image and video. I also build **analytics dashboards**, **CRMs** and my own tools, from banner automation to local AI apps.

EXPERIENCE

NetBet Romania — Jan 2022 - Present

Full-time · Bucharest · Hybrid

Creative Front-End Developer — 2025 - Present

- Own campaign landing pages, HTML5 banners and promo pages for multiple markets, from **Figma / Photoshop design to production code**.
- Built **Bannerflow Blueprint Studio**, an internal React tool with a local LLM: edit per-market blueprints, enter copy once, auto-generate every banner size, export PNG / GIF / ZIP.
- Designed and built **NetBet MAX**, a brand-ambassador site (28 rank wardrobes, poses, landing pages), plus a Greece character build.

Front-End Developer — Jan 2022 - 2025

- Developed responsive **landing pages, promotional pages and HTML banners** for casino and sports-betting campaigns, pixel-perfect and cross-browser.
- Built interactive components like **spin-to-win wheels, bet builders and gamified journeys** in JavaScript and React.
- Turned recurring layouts into reusable templates; worked with design, marketing and CRM teams and mentored newer colleagues.

Video Editor & Videographer — May 2015 - Jun 2021

Forged Media Production · Full-time · Bucharest

- Edited commercials, branded content and social videos end-to-end, from rough cut to final delivery.
- Filmed on location and in studio; created motion graphics and titles in **After Effects**, color and audio in **Premiere Pro**.
- Organized footage pipelines and mentored junior editors.

Video Editor — Aug 2012 - Feb 2015

9Agency · Full-time · Bucharest

- Edited promotional and event videos for agency clients; adapted content for web and social formats.

SELECTED PROJECTS - LIVE SITES & OPEN SOURCE

Graphoria Studio

DESIGN · VIDEO · WEB

Visual storytelling studio: UI/UX, editorial and campaign design, websites and video production. Portfolio with separate design and video showcases.

graphoria.studio/design · /video-making

graphoria.studio

NetBet MAX

BRAND · CHARACTER

Brand-ambassador exhibition: wardrobe for 28 loyalty ranks, poses, films and landing-page concepts. Greece edition with a new character build.

UI design & dev · **Character build** · HTML / CSS / JS

nbmax.vercel.app · netbetmax-greece.vercel.app

NetBet Sport - 3D Map

3D · LANDING PAGE

Football landing page for NetBet Sport built around an **interactive 3D map** and animated sports gallery.

React · GSAP · 3D · Motion

esport-three.vercel.app

Mega Mesa - CrazySlot

GAME · PIXIJS

Cinematic five-reel Western slot demo on a **PixiJS** canvas: animated reels, eased stops, bounce physics and payline playback.

React · Vite · PixiJS · Canvas

crazyslot.vercel.app · github.com/dexterR35/CrazySlot

Bannerflow Blueprint Studio

INTERNAL TOOL

Banner studio with a **local LLM**: edit per-market blueprints, auto-fit copy, subject-aware cropping, GIF timelines and ZIP export.

React · Vite · Local LLM · SAM 3 · OpenCV.js

github.com/dexterR35/banner-flow

Xync - Sync Task

TASK APP

Task app with **Jira & Tempo integration**: create tasks, sync worklogs and follow team analytics, workload and delivery progress.

React · Jira API · Tempo · Analytics

sync-task.app

ObtineCredit

FULL-STACK

Public website for credit services plus a custom **admin dashboard / CRM** for managing leads, requests and content.

React · CRM · Admin panel · Vercel

obtinecredit.ro · obtinecredit-admin.vercel.app

T-shirt Kit

SPORT STUDIO

Sports t-shirt studio built on **JSON data**: create and edit kits for 735 teams, home/away, 3D view, lighting and batch PNG/ZIP export.

React · JSON-driven · Framer Motion · SVG

dt-shirt.vercel.app/studio

Lara - Lottie Studio

MOTION TOOL

Browser-only Lottie asset studio: open JSON / dotLottie, extract and batch-replace images, preview and export rebuilt animations.

UI design & dev · React · Lottie

lara-alpha.vercel.app

Prime A & B

LANDING PAGES

Two invitation-only, story-driven LPs, “Loja Privată” and “Adresa Secretă”: animated reveals, cookie consent, GTM / Meta tracking and SEO.

HTML / CSS / JS · Motion · GTM · JSON-LD

prime-b.vercel.app · github.com/dexterR35/primeA

Lluna

DESKTOP APP · AI

Electron app with a local Python backend for node-based AI image & video workflows: cleanup, upscaling, background removal, generation.

Electron · Python · FLUX · SAM

github.com/dexterR35/lluna

ImageFind

SEARCH · AI

Searchable catalog for large image libraries and NAS: OCR, object detection, visual similarity search and duplicate finder.

Python · SigLIP 2 · SQLite

github.com/dexterR35/imagefind

More on **github.com/dexterR35**: HTML5 banners, Image Studio, LP Builder, games and more.
